### Declaration of JOHN ISAACS Pursuant To 28 U.S.C. § 1746

I, JOHN ISAACS, hereby state that I have personal knowledge of the facts set forth below. If called as a witness, I could and would testify as follows:

- 1. I am a United States citizen over the age of 18 years of age. I live in Franklin County, Columbus, Ohio.
- 2. I am currently employed with the Ohio Attorney General's Office as a Consumer Protection Investigator. I have been employed with the Ohio Attorney General's Office in this capacity since April of 2013. In the course of my duties, I was assigned to work on the Anti-Robocall Task Force in June of 2022. The task force is comprised of 51 attorneys general offices from across the country with the shared primary goal of combatting the epidemic of illegal and/or fraudulent robocalls (prerecorded voice messages). The task force is focused on investigating and taking enforcement actions against individuals and entities in the robocall ecosystem that are identified as responsible for significant volumes of illegal and/or fraudulent robocall traffic routed into and around the country. One of the targets for which I performed investigative tasks was Michael D. Lansky, LLC dba Avid Telecom. (hereafter, "Avid Telecom" or "Avid").
- 3. Avid Telecom first came to my attention in the course of another investigation to which I was assigned, known in my office as "Sumco Panama" and its related entities. Avid Telecom appeared to be providing VoIP services used to initiate or facilitate high volumes of illegal and deceptive "auto warranty" robocalls. The robocalls at issue purported to pertain to existing manufacturers' warranties on consumers' vehicles. In the course of that investigation, my office issued a subpoena in February of 2021 to Avid Telecom for records relevant to the robocalls at issue. Avid Telecom produced records related to their customer account identified as Virtual Telecom Kft and Mobi Telecom. The records produced included an account history log, correspondence, and call detail records from approximately June 2020 through February 2021.
- 4. On or about February 26, 2021, I spoke on the telephone with Michael D. Lansky regarding the records produced by Avid for the account in the names of Virtual Telecom Kft and Mobi Telecom. Lansky indicated that the account at issue was opened in June of 2020 for a Hungarian company using the name, Virtual Telecom Kft. He stated that the account was a small, wholesale account with a "couple hundred ports." I inquired as to whether Avid Telecom had a written agreement with Virtual Telecom/Mobi Telecom. He responded that the account was set up as a prepaid account and that Avid Telecom did not require customers with prepaid accounts to sign master service agreements. I inquired why the name on the account was later changed to Mobi Telecom with an address in Wyoming. Lansky stated that it was not usual for account names to change due to mergers and acquisitions among companies.
- 5. One of the documents received from Avid Telecom provided two lists of internet protocol addresses ("IP addresses") for the Virtual Telecom Kft/Mobi Telecom account. In the context of telephone calls made through Voice-over-Internet Protocol ("VoIP") service, IP addresses are used to direct call signaling. One list provided IP addresses associated with

- what was labeled as a "Premium Dialer Route", and the second list was labeled as a "Conversational Route". The subpoena response noted that the Conversational termination had only 3 days of traffic over this route (8/4/20, 11/16/20, and 11/17/20). A true and accurate copy of the list of IP addresses is attached as Attachment A.
- 6. As of October 2020, Stacey Reeves held herself out publicly as the Vice President of Operations/Sales for Avid Telecom. A true and accurate copy of the LinkedIn profile for Stacey Reeves is attached as Attachment B.
- 7. In her position with Avid Telecom, Stacey Reeves had the ability to access and did access the settings on customer accounts in ways that would manage or affect the respective customer's call traffic. For example, the account history log provided by Avid Telecom for the Virtual Telecom Kft/Mobi Telecom account show that at numerous times between October 27, 2020 and February 8, 2021, Stacey Reeves accessed and managed the account settings. At times, she selected service providers through which the call traffic would be routed, updated the call signaling IP addresses for the Premium Dialer Route, and affected the volume of calls the account could initiate by making changes to the "CPS" (calls per second/session) and the session limits. A true and accurate copy of the account history log showing Reeves management of the account settings is attached as Attachment C.
- 8. Avid Telecom continued to provide VoIP service for Virtual Telecom/Mobi Telecom after receiving the investigative subpoena from my office. I received and reviewed additional records related to Avid in the course of my investigative tasks. On March 24, 2021, Stacey Reeves sent an email to Avid customer, Mobi Telecom, requesting that they remove a phone number from their call list due to the receipt of a consumer complaint. She requested they respond to her with confirmation. In this email, Stacey Reeves identifies herself as the Vice President of Operations and Sales and provides a contact telephone number with an Arizona area code. A true and accurate copy of the email sent by Stacey Reeves is attached as Attachment D.
- 9. As part of this investigation, I have also reviewed records received from US Telecom's Industry Traceback Group. These records include email correspondence sent to or received from Stacy Reeves using email address, reeves@avid-telecom.com. True and accurate copies of the email correspondence are attached as Attachment E. For purposes of this declaration, the last seven digits of the call recipients' telephone numbers were redacted from the traceback emails to protect the telephone subscribers' privacy.
- 10. The emails in Attachment E show that between March 20, 2021 and March 23, 2023 Stacy Reeves received at least 9 traceback requests from the Industry Traceback Group that related to calls that terminated to telephone numbers with Arizona area codes 480, 520, 602, and 928. These tracebacks were concerning call campaigns that were labeled as AutoWarrantyExtend, AutoWarranty-NationalDealerSvcs-P1, AutoWarranty-Various-P2, VZ-AutoWarrantyExtend, Medicare-Rewards-P1, OneRingScam, and SSA-DisabilityAdvisor. A response to Traceback 6712 shows that Stacey Reeves entered information on behalf of Avid, and in the response, she identified herself as the Vice President of Operations and Sales of Avid Telecom and provided a contact telephone number with an Arizona area code.

- 11. As part of my review of the records received by Avid Telecom for the Virtual Telecom Kft/Mobi Telecom account, the call detail records received were uploaded to a Microsoft SQL Server. Once uploaded, I then conducted several queries against the call detail records to get an accounting of trends found within the data. The analysis I conducted showed that between October 27, 2020 and February 8, 2021 Avid Telecom facilitated at least 55,224,731 telephone calls for Virtual Telecom/Mobi Telecom to numbers with Arizona area codes. At least 14,564,275 calls went to phone numbers with 480 area codes, 11,560,741 calls went to phone numbers with 520 area codes, 14,573,288 calls went to phone numbers with 602 area codes, 6,166,643 calls went to 623 area codes, and 8,359,784 calls went to phone numbers with 928 area codes.
- 12. As part of my review of the Avid Telecom call detail records for the Virtual Telecom Kft/Mobi Telecom account, I conducted a search in the Federal Trade Commission's Consumer Sentinel Network database for Do Not Call Complaints filed by Arizona residents between October 27, 2020 and February 8, 2021. I used the keyword "warranty" to narrow the search results to the type of complaints potentially related to calls I knew from the Sumco investigation that were likely to be associated with Virtual Telecom Kft/Mobi Telecom. The number of complaints returned totaled 1,329 complaints filed by individuals that identified themselves as having an Arizona address. I then took those complaints and searched for all instances where the consumers' telephone numbers and company number in the report matched the dst\_number (called number) and src\_number (calling party's number) within the call detail records that Avid Telecom provided for their customer Virtual Telecom Kft/Mobi Telecom. The number of complaints that matched this criterion was 246 complaints. Of the 246 complaints filed, the consumer phone numbers for 237 of those complaints were identified as being on the National Do Not Call Registry at the time the report was made. At least 18.5% of the complaints found within the initial broad search could be directly attributed to phone calls that were transmitted by Avid Telecom during the time frame in which Stacey Reeves had directly managed and or directed the call traffic for Avid Telecom's client Virtual Telecom Kft/Mobi Telecom by selecting specific calling routes, updating the call signaling source IPs for the Premium Dialer Route, and choosing the calls per second/session and session limits on the traffic being transmitted by Avid Telecom.
- I also reviewed records that were produced by Avid Telecom in response to a subpoena issued in a multi-state civil enforcement action against Rising Eagle Capital Group LLC, et al. related to illegal robocalls. In that case, Avid Telecom provided VoIP service to Defendant John Spiller and his various entities. Records that were responsive to this subpoena included account log history for Avid Telecom accounts, 1114, 1116, 1119, 1151, 381, 387, 392, and 393, and corresponding call detail records for these accounts. The account log history for these accounts show that Stacey Reeves had the ability to access and did access the settings on customer accounts in ways that would manage or affect the respective customer's call traffic. For example, the account history log provided by Avid Telecom for account 1114 showed that on October 28, 2020 Stacey Reeves accessed and managed the account settings, and selected service providers through which the call traffic would be routed. Below is a true and accurate copy of the log entries recorded on October 28, 2020 for account 1114 for Stacey Reeves.

- 14. As part of my review of the records received by Avid Telecom for account 1114, I linked a copy of call detail records received for Oct 28, 2020 to a Microsoft Access Database. Once they were linked, I then conducted several queries against the call detail records to get an accounting of trends found within the data. The analysis I conducted showed that on October 28, 2020 at least 360,332 telephone calls were initiated to numbers with Arizona area codes. At least 87,529 calls went to phone numbers with 480 area codes, 80,563 calls went to phone numbers with 520 area codes, 95,920 calls went to phone numbers with 602 area codes, 34,155 calls went to 623 area codes, and 62,165 calls went to phone numbers with 928 area codes.
- 15. As part of my review of the Avid Telecom call detail records for account 1114, I conducted a search in the Federal Trade Commission's Consumer Sentinel Network database for Do Not Call Complaints filed by Arizona residents on October 28, 2020. I then took those complaints and searched for all instances where the consumer's number and company number in the report matched the dst\_number (called number) and

src\_number (calling party's number) within the call detail records that Avid Telecom provided for account 1114. There were at least 4 complaints filed by 3 consumers that matched this criterion. The consumer phone numbers for these three consumers were identified as being on the National Do Not Call Registry at the time the report was made, and all 4 complaints filed were concerning Auto Warranty calls.

- I reviewed additional records that showed Stacey Reeves's ability to manage or affect the call traffic of Avid Telecom customer accounts included emails between Stacey Reeves and Teleo Connection on February 23, 2021 and September 10, 2021. These emails showed that Stacey Reeves was identified as the Vice President of Operations and Sales with an Arizona area code contact phone number, was notified of calls routed to Arizona area code phone numbers that were concerning IRS Impersonation Scams and SSA scams, and that she had the ability to block the traffic coming from Avid Telecom customers. True and accurate copies of the emails between Stacey Reeves and Teleo Connection is attached as attachment F. For purposes of this declaration, the last seven digits of the called numbers were redacted from attachment F to protect the telephone subscribers' privacy.
- 17. I also reviewed correspondence between Stacey Reeves and voice service provider, Red Telecom. In a Skype chat with Skype user, jp\_vasquez1, on January 31, 2022 Stacey Reeves wrote "FYI I've blocked Vermont", indicating that she also had the ability to block Avid's call traffic to an entire state. A true and accurate copy of the Skype chat from January 31, 2022 is attached as attachment G.
- 18. Additional correspondence I reviewed that showed Stacey Reeves's ability to manage or affect the call traffic of Avid Telecom customer accounts included emails between Stacey Reeves and Inteliquent from July 23, 2021 and July 27, 2021. Stacy Reeves wrote: "I've made some adjustments to help with the ASR. End of day stats should be closer to 60%." And "Unfortunately, I don't have the ability to breakout our stats by terminating carrier destination." An Inteliquent employee responded with the chart below. A true and accurate copy of these emails is attached as attachment H.

19. On November 6, 2023, I searched the Arizona Corporation Commission for Cox Arizona Telecom, INC and Comcast Phone of Arizona LLC on <a href="https://ecorp.azcc.gov/EntitySearch/Index">https://ecorp.azcc.gov/EntitySearch/Index</a>. My search resulted in Cox Arizona Telecom LLC, entity ID R08123296, to be a registered Foreign LLC in Arizona since 1997. My search also resulted in Comcast Phone of Arizona LLC, ID R11355824, to be a registered Foreign LLC in Arizona since 2004. A true and accurate copy of the Arizona Corporation Commission search results are attached as attachment I.

Executed on this 6th Day of November, 2023, in the City of Columbus, in Franklin County, Ohio.

INVESTIGATOR JOHN ISAACS

## **About**

Please see my personal website link below. I have joined the fundrasing team for No Greater Sacrifice to run the Marine Corps Marathon on October 28, 2012. No Greater Sacrifice (NGS), a nonprofit organization created in February 2008, is dedicated to the children of our nation's fallen and wounded Service members by delivering scholarships and resources to improve their quality of life through the pursuit of higher education. I am very excited about supporting this organization by being a member of this team and look forward to an amazing experience training for and running the MCM 2012! Any consideration of or donation to the cause would be greatly appreciated.

### THE BROADBAND ASSOCIATION

Dear Voice Service Provider:

An Industry Traceback Group (ITG) participant recently received traffic from your network that has been deemed suspicious, and we are seeking your assistance in order to identify its origin. Consistent with U.S. federal law and regulations, the ITG requests that you identify the source of this potentially fraudulent, abusive or unlawful network traffic. Information, including call details, related to this traceback request is available in the ITG's secure online portal linked below.

We appreciate your past support of the ITG, the official U.S. Federal Communications Commission-designated traceback consortium. We are writing to request your assistance on a traceback investigation that we reasonably believe involves fraudulent, abusive or potentially unlawful robocalls. We request that you assist industry stakeholders who are engaging in traceback efforts in order to help identify the source of this potentially fraudulent, abusive or unlawful network traffic. We would appreciate a response to this traceback inquiry in three business days or sooner, but please let us know if you need additional time.

Please respond by clicking the link below, which will take you to our secure traceback portal. There, you can indicate who sourced the call(s) to you. For confidentiality and security purposes, please provide this information *only* through the online portal and *not* via email.

Feel free to reply to this email with any questions, and we appreciate your continued support of ITG efforts.

Best Regards,

Josh Bercu Vice President, Policy & Advocacy USTelecom – The Broadband Association 601 New Jersey Avenue NW, Suite 600 Washington, DC 20001

Campaign: VZ-AutoWarrantyExtend
Date/Time: 2021-03-10 17:43:00 +0000 UTC

To: +1520 From: +15203919758

Calls to wireless numbers offering to extend or reinstate an auto warranty. Random auto-dialing. Sample message: "We've been trying to reach you concerning your car's extended warranty. You should have received something in the mail about your car's extended warranty. Since we have not gotten a response, we are giving you a final courtesy call before we close out your file. Press 2 to be removed and put on our do not call list; press 1 to speak with someone about possibly extending or reinstating your car's warranty. Again, press 1 to speak with a warranty specialist when calling from automotive services, if you would like to be removed from our calling list please call toll-free [PHONE]." Many variants of the message are used. To listen to the specific message for the call, please listen to the audio provided within the traceback, if available.

Campaign: SSA-DisabilityAdvisor

Date/Time: 2021-05-14 15:13:21 +0000 UTC

To: +1928 From: +19282365861

Recorded voice says this is a Social Security Disability Advisor, suggesting caller is affiliated with SSA. Message, captured in consumer voice-mailbox, does not conform to 47 CFR  $\tilde{A}$ ,  $\hat{A}$ \$ 64.1200(b): Must state name of business at beginning of message and must include toll-free callback number for automated opt-out. Many different caller-IDs so blocking the ANI is not effective. Access portal to listen to audio. This call is just one example representative of millions of calls. Callback connects to IVR that does disclose name of originating business nor give access to live agent.

Stacey

Still not seeing much change - % unassigned to Comcast destinations was nearly 50% on Monday this week. Below is some data with the OCNs, if that helps

Report								
Orig Customer Name	C Day	Short Duration C	% Unassigned	ASR %	QOS Attempted C			
	07/26/21 (Mon)	2,40%	46,36%	42,57%	686			
	07/19/21 (Mon)	0.81%	22,30%	44.60%	278			
Avid Telecom LLC	07/12/21 (Mon)	1,37%	7.54%	36.68%	199			
	07/05/21 (Mon)		50.00%	0.00%	8			

Orig Customer Name	Destination OCN	Destination OCN Name	€ Day	Short Duration C	% Unassigned	ASR %	QOS Attempte
			07/26/21 (Mon)	2.45%	14.56%	69.42%	
	24.03	COMCAST IP PHONE, LLC	07/19/21 (Mon)	0.81%	8.15%	52,79%	
	3183		07/12/21 (Mon)	1,39%	7.61%	36.55%	
			07/05/21 (Mon)	-	50.00%	0.00%	
	408D	COMCAST PHONE OF TENNESSEE, LLC - TN	07/26/21 (Mon)	0.00%	25.00%	25.00%	
Avid Telecom LLC	657E	COMCAST PHONE OF ARIZONA, LLC - AZ	07/26/21 (Mon)	-	97.69%	0.00%	
	930B	COMCAST PHONE OF CENTRAL INDIANA, LLC - IN	07/19/21 (Mon)	0.00%	0.00%	100.00%	Ĵ
	707	78 COX ARIZONA TELCOM, INC AZ	07/19/21 (Mon)	-	97.73%	0.00%	
	717	O COMCAST PHONE OF GEORGIA, LLC - GA	07/12/21 (Mon)	-	0.00%	0.00%	â
	756	2 COMCAST PHONE OF FLORIDA, LLC - FL	07/26/21 (Mon)	0.00%	30.00%	50.00%	
	760	7 COMCAST PHONE OF ILLINOIS, LLC - IL	07/12/21 (Mon)	0.00%	0.00%	100.00%	á .

Overall your ASR did jump to 55% on Monday so we will keep an eye on that this week!

//EXTERNAL Sender: reeves@avid-telecom.com from .

Hello Stacy,

I've made some adjustments to help with the ASR. End of day stats today should be much closer to 60%.

Unfortunately, I don't have the ability to breakout our stats by terminating carrier destination. I did remove a few customers that had higher 404 stats, but it would be helpful if you could possibly give me a few random examples of 404 calls in the Comcast subset.

As to the warranty traffic, we are continually working to remove this traffic from our network. We have been able to identify most of our customers who are sending the traffic, but, as you know, it continues to pop up from other sources.

Have a great weekend.
